Time/Distance	Intensity	MZ Color
2:00	Easy – 6/10	Blue
.3 mile	Hard – 8/10	Yellow

NOTES The .3 mile cap gives everyone a fixed target to push through at their own pace, rather than a set time to fill. The full 2:00 recovery lets heart rate fully drop before the next repeat.

BENCH		RACK	
DB Hip Thrust	Upper back on bench or floor. Legs bent. DBs on hips. Drive heels into the ground and squeeze butt to lift hips as high as possible. Lower controlled.	Ball Squat	Holding MB in front of body, sit hips down so that thighs are parallel with ground. Stand tall, Repeat.

Facing Bench slightly hinged at hips, holding Fitband in each hand, alternate rows while simultaneously rotating torso through pull, return to start and repeat on other side	KB Halo	Standing holding KB by the horns at chest height. 2:30	Hard – 8/10	Yellow
1:30	Moderate – 7/10	Green

NOTES Recovery here is Moderate, not Easy, so lactate never fully clears before the next Hard push. That's what builds tolerance for working while already fatigued.

2:00	Hard – 8/10	Yellow

NOTES The 1-minute easy segment is only a partial reset, so the second Moderate/Hard wave starts already tired. That's the point — building the ability to push hard on legs that aren't fresh.

1:00	Easy – 6/10	Blue

Time/Distance	Intensity	MZ Color
.1mile	Moderate – 7/10	Green
.1mile	Hard – 8/10	Yellow

NOTES Distance-based work ties intensity to individual capability instead of a fixed pace. The Moderate/Hard alternation trains the body to recover *while moving* — a different adaptation than steady-state cardio.

Treadmills | Bikes

Time/Distance	Intensity	MZ Color
2:00	Moderate – 7/10	Green
.3 mile	Hard – 8/10	Yellow

NOTES Moderate should feel steady and breathable — short phrases still come easy. Hard should feel like a controlled push right at the edge, where talking is challenging. That repeated exposure trains the body to buffer fatigue faster and hold that edge longer over time.

BENCH		RACK	
Fitbench Step Up Alt.	Stand feet hip width behind bench. Step up onto the bench keeping the chest high. Step back down. Repeat second side.	TRX Crossing Balance	Begin feet hip width holding TRX handles at 90 degrees. Step backward, crossing your knee behind the other, knee almost to ground, torso upright, return, switch legs, REPEAT.

Treadmills | Bikes

Time/Distance	Intensity	MZ Color
1:00	Easy – 6/10	Blue
2:00	Hard – 8/10	Yellow
	x3	

NOTES Easy is a quick reset. Hard should feel like a controlled push right at the edge, sustainable for the full 2:00 but not comfortable. Repeating this 3x trains the body to recover fast and hit that edge repeatedly.

BENCH		RACK	
DB Pullover Hips off Bench (12)	With shoulders on the edge of the bench, both hands on DB. Take DB over head to behind bench, pull over to chest level with lats.	KB Goblet 1.5 Squat Stance (12e)	KB held goblet, stand staggered stance 1.5, complete squat. Will need to complete same stance with other foot slightly back and staggered

Then drive hips into the air as far as possible, and lower back to plank with control and repeat combo

NOTES: Circuit through the movements, completing the reps and resting only as needed to continue moving the same weight for 9 minutes.

Coach's Choice for COOL DOWN: choose 3 muscle groups ~45s each: ex. quads, calves, pecs, triceps.

Breathing Practice: Box Breathing – 4s in thru nose, 4s out thru mouth

1:30	Easy – 6/10	Blue
2:30	Hard – 8/10	Yellow
	x2	
1:00	Moderate – 7/10	Green

NOTES 2:30 is long enough that hard has to be paced, not sprinted — members learn to hold an edge rather than spike and fade. Finishing on moderate instead of easy keeps the legs working through the comedown, so recovery becomes active instead of a full stop.

BENCH		RACK	
DB Goblet Dropstep Squat alt. (total)	Holding a DB in the goblet position, Open the hips to step into a sumo position. The body turns 90 degrees with the step. Squat. Stand back up with feet together and repeat on the other side. DB Row in Lunge 1 arm (each side)	Take one step back into lunge position. Keep soft bend in front leg with the knee in line with your ankle and back leg straight. Lean slightly forward and rest your free hand on your front thigh. Extend DB toward floor, pull DB towards chest & back down. Alternate and complete on both sides	Alt Arm KB Swing	KB on floor in front of you, feet shoulder width, hips slide back, grab KB handle with 1 hand, hike between legs. Drive hips forward & stand tall, as bell floats, switch hands then drive back between legs.
Sprinter Abs (each side)	Sit on bench, keeping upper body at 45* angle. Bring right knee towards chest while pumping left arm towards knees and alternate sides and arms like you're sprinting. Don't allow feet to touch ground or body to fall forward or down.	TRX Biceps Clutch	Start facing anchor point, palms holding TRX handles facing one another, fulling extended, pull yourself towards hands, bring palms towards arm pits, elbows go out and not above shoulder, clutch/hold, release and repeat

NOTES: Ladder up reps each round by 2 reps starting at 12, restarting the ladder once 16 is reached.

Coach's Choice for COOL DOWN: choose 3 muscle groups ~45s each: ex. quads, calves, pecs, triceps.

Time/Distance	Intensity	MZ Color
:45	Moderate – 7/10	Green
:45	Hard – 8/10	Yellow
:45	Easy – 7/10	Blue
	x4	

NOTES Three quick shifts back to back force the body to switch fuel sources fast — aerobic for the steady stretches, anaerobic for the hard push — instead of settling into one system. That switching ability is what builds durable, well-rounded endurance over time.

BENCH		RACK	
Side Lunge w/ Hop (6e)	Complete a side lunge, as drive up to stand, push off feet for slight hop and side shuffle to complete side lunge on opposite side. Continue to alternate	Ball Racked Split Squat (6e)	Holding MB on shoulder, split stance, drop back knee to almost to ground, torso stays tall, drive through heel to stand. Switch feet at halfway point.

Body in a straight line. Slowly lower to chest level with ball, return. Roll MB to other hand. Repeat.
Crunch Toe Touch on Bench (12)	Lie flat on back, legs straight up in air, feet stacked over knees and hips, chin tucked to chest, arms extended straight up and try to crunch up and have fingers touch toes	KB Swing w/ Lateral Step (12total)	KB Swing while taking lateral step alternating sides from right to left

NOTES: Circuit through the movements, completing the reps and resting only as needed to continue moving the same weight for 9 minutes.

Treadmills | Bikes

Time/Distance	Intensity	MZ Color
1:00	Easy – 6/10	Blue
25 cal	Hard – 8/10	Yellow

NOTES Calorie-based hard efforts are self-paced — the harder someone pushes, the faster they hit 25 and the sooner the interval ends. This rewards real intensity instead of just holding on for a fixed time, and keeps effort honest since easing off only makes the work last longer.

BENCH		RACK	
<u>Squat to Split Jump</u>	Complete a squat then split jump lunge on each side and back to start. Continue to repeat.	<u>Ball Ground to Shoulder Alt.</u>	Stand with MB in front of you. Squat to grab ball, back flat. Stand and bring ball to shoulder. Roll it over. Repeat other side.
<u>DB Power Clean</u>	Stand feet shoulder width apart, DB in each hand in front of shins. Drive feet into the floor, and thrust hips forward, bringing DBs just above shoulders. Bring DBs back to floor, repeat second side	<u>KB Tactical Lunge</u>	Holding KB by side, complete a reverse lunge with the opposite foot. Pass KB underneath front leg. Step forward. Repeat on opposite side.
<u>Sit up on Bench</u>	Lie flat on bench, hands to either side of head, complete sit up. Lie back down, controlled and repeat.	<u>Res. Continue to alternate on each side.

NOTES: Begin each movement at the top of every minute for 9 minutes. Transition between movements at the 10s mark.

NOTES The :30 max should feel truly all-out — unsustainable past 30 seconds, which is what recruits maximum fuel and muscle fiber. That ceiling is what separates max from hard, and why it can only last a short burst.

Time/Distance	Intensity	MZ Color
.1 mile	Moderate – 7/10	Green
.1 mile	Hard – 8/10	Yellow

NOTES Equal distance at two intensities means the hard segment always demands more from the body in less time than the moderate one — training members to raise power output while covering the same ground. Since it's distance-based, effort scales to each person's own fitness rather than a fixed pace.

BENCH		RACK	
Bench Wall Sit Press	Adjust bench to highest setting. Sit back with feet hip width apart, back flat on bench, and hamstrings parallel to floor, complete shoulder press with DBs	Ball Slam w/ Power Hop	Start with Med Ball between feet. NOTES After the hard push, effort drops to moderate instead of easy, so members recover while still working rather than getting a full reset. This trains the ability to hold quality effort even when tired, instead of needing a complete break to bounce back.

DB Pull Over-Hips Off Bench (6)	With shoulders on the edge of the bench, both hands on DB. Take DB over head to behind bench, pull over to chest level with lats. NOTES Dropping to easy before the hard push means members hit that push from a recovered state rather than carrying fatigue into it, so the hard segment reflects true top-end output. This trains the ability to go from calm to a strong push quickly — a different demand than ramping up gradually.

:45	Moderate – 7/10	Green
1:00	Hard – 8/10	Yellow
:45	Easy – 6/10	Blue

:45	Max	Red
:45	Easy	Blue

NOTES Three rounds of moderate-hard-easy build pacing control before the closing :45 max, which tests what's still available after all that work. Cue members to give each hard effort everything it deserves, then trust that the body can still find more for that final max push.

Treadmills | Bikes

Time/Distance	Intensity	MZ Color
1:00	Easy – 6/10	Blue
10 cal	Hard – 8/10	Yellow

NOTES Because the target stays the same each round but fatigue builds, hitting 10 cal takes longer as the set goes on — a visible sign of accumulating fatigue rather than a fixed pace. This trains members to keep pushing for the same output even as it gets harder to produce.

BENCH		RACK	
<u>DB Racked Side Lunge alt.</u>	Racking DBs on shoulders, complete side lunge, alternating each side.	<u>Squat with Step</u> (load if needed)	Start standing feet under hips, steps right foot out wider than hips and squat, back to start, step out with left foot, squat, back to start and repeat movement on both sides

	Workout Description	08/30/2026 - Complete the following stations for 9 mins each, coaching all stations equally. 1-minute transition between stations. <u>Use RPE to coach those not wearing a Myzone belt</u>	

Treadmills | Bikes

Time/Distance	Intensity	MZ Color

1:30	Hard – 8/10	Yellow
	x2	
1:30	Moderate – 7/10	Green
1:30	Easy – 6/10	Blue

NOTES Repeating 1:30 hard efforts trains the body to buffer and clear lactate faster each round, raising the effort members can sustain before fatigue catches up. The closing moderate-to-easy taper eases heart rate down gradually instead of stopping cold, which helps the body recover more efficiently.
